Forces

The Eldar Ulthwé Craftworld Army List Army List uses the datasheets from the Eldar Forces section.

Using the Army List

Eldar Ulthwé Craftworld formations come in three types; the first two are warhost and troupe formations. Each warhost you include in the army allows you to field any three troupe formations. Although you can only take a troupe formation if you first take a warhost, they are treated as separate independent formations during a battle and do not have to move around together. The third type of formation are Ulthwé Craftworld Spacecraft, Aircraft & Titan formations. A maximum of up to a third of the points available to the army may be spent on these formations.

Finally, Ulthwé Craftworld Individuals includes special characters, formations and objective options. Each individual may only be taken once by the army. The rules for using each individual are listed in the “Notes” column.

The army list includes the following information:

Formation: The name of the formation.

Units: The core units that make up the formation.

Extras: An Eldar formation may include any of the extra units listed in the “Extras” column. You may include any number of extra units in a formation unless it is specifically noted otherwise. All of the core and extra units in a formation count as being part of one formation. The different units may not move off on their own.

Cost: The points value of the formation.

Special Rules

The *Hit & Run Tactics* rule applies to all Eldar formations (see *Hit & Run Tactics*). Additionally, certain units and weapons have special abilities described in *Farsight* (see *Farsight*) and *Eldar Technology* (see *Eldar Technology*).

SPECIAL RULE

May Not Garrison

The Eldar are a highly mobile army, and rarely have enough forces to try to take and hold ground. Because of this, instead of maintaining a heavily garrisoned front line, they will usually rely on a screen of Rangers and War Walkers to warn of the approach of any enemy forces. Meanwhile the bulk of the highly mobile Eldar army will be held back in reserve, where it will be ready to move quickly to any threatened sector. This tactic allows the Eldar to hold large areas of ground with relatively few troops.

To represent these tactics, only Eldar Rangers and War Walkers are allowed to garrison objectives in the Epic tournament game scenario.

ELDAR ULTHWÉ CRAFTWORLD ARMY LIST ARMY LIST

Eldar Ulthwé Craftworld armies have a **strategy rating of 5**. Avatar, Aspect Warrior, Phantom-, Revenant-, Warlock Titan and the **Seer Council (as long as alive) formations** have an initiative rating of 1+. All other formations have an initiative rating of 2+.

SPECIAL RULE

Farsight

Eldar Farseers are able to partially unravel the threads of time, allowing them to foresee events that may affect his army, and act to counter them. To represent this, any Eldar formation that includes a unit with Farsight may ignore the -1 Action test penalty when they try to retain the initiative. In addition, once per turn the Eldar player may attempt to retain the initiative twice in a row (i.e. the Eldar player can retain the initiative and take another action after having successfully retained the initiative once already). Any Eldar formation may be chosen, including those that do not include a unit with Farsight, but at least one unit with Farsight must still be in play and on the battlefield. The formation must still pass an initiative test in order to carry out the action, and will suffer the -1 modifier for retaining the initiative unless it includes a unit with Farsight. Once the action has been taken the initiative returns to the opposing player.

Hit & Run Tactics

The Eldar are a dying race, and any loss is deeply mourned. Because of this they have developed tactics that, when combined with their highly advanced technology, allows them to attack the enemy and then quickly retire in order to avoid any return fire. This special ability is reflected by the following special rules, which apply to all formations in an Eldar army. Eldar formations that take advance or double actions may choose to shoot either before or after each move. However, they may still only shoot once during the action. For example, an Eldar formation taking an advance action could shoot and then move or move and then shoot, while a formation taking a double action could shoot and move twice, move twice and then shoot, or move then shoot and then move again. In addition Eldar formations that wins an assault are allowed to move any distance up to their speed value when they consolidate, rather than being limited to a move of 5cm as would normally be the case.

SPECIAL RULE

Eldar Technology

The Eldar are a technologically sophisticated race that make use of a number of devices that have capabilities far in advance of anything used by the other races in the galaxy. These technological advantages are represented in Epic by the following special rules:

HoloField: Eldar Titans are protected by a HoloField that is projected from special wing-like structures on the Titan's carapace. These fracture the image of the Titan making it appear as a swirling cloud of coloured motes to the naked eye, while at the same time disrupting any targeting devices attempting to lock onto the Titan. The overall result is to make the Titan a very hard target to hit! HoloFields provide Titans with a special 3+ saving throw that can be taken instead of the Titan's normal saving throw. This save may always be taken, even against hits in an assault or against Titan Killer or Macro-weapons attacks. Make a single saving against weapons with the Titan Killer ability, rather than a separate save for each point of damage. If a vehicle with a HoloField also has Reinforced Armour, then it is allowed to re-roll its saving throw unless hit by Lance, Macro-weapon or Titan Killer attacks, but the re-roll must be made using the units armour save rather than the HoloField save. No Blast markers are placed for hits that are saved by a HoloField.

Lance: A Lance uses a highly concentrated beam of laser energy to destroy heavily armoured targets. A unit with Reinforced Armour that is hit by a Lance weapon is not allowed to re-roll its saving throw.

Webway Portal: Webway portals are used by the Eldar to safely travel through the Warp. Each Webway Portal included in the army allows the Eldar player to pick up to three other formations, and keep them back on the Craftworld. Any formation's that are kept on the Craftworld may enter play via the Webway Portal, by taking an action that allows them to make a move, and then measuring their first move from the position that a Webway Portal occupies on the tabletop. Note that the formation may appear through any Webway Portal, not just the one that was "used" to allow the formation to be kept off-board. No more than one formation may travel through each Webway Portal each turn.

In the Epic Tournament Game Rules formations in reserve with multiple deployment options must have a designated deployment method during setup (e.g. Webway Portal, air transport or teleport).
