### SPECIAL RULE - Frenzied

Some units are noted as being *Frenzied*. Formations that contain a *Frenzied* unit which can potentially reach base contact with an enemy unit after an Engage move will receive a +1 modifier to their initiative roll if they attempt to perform the Engage action. Formations that have a frenzied unit which can potentially reach base contact with an enemy unit after an Engage move will receive a -1 modifier to their initiative roll if they attempt to perform any action other than the Engage action.

### SPECIAL RULE - Death Company

Death Company formations may never claim objectives, but may contest them. *Any Dreadnoughts attached to the Death Company gain the Fearless ability.*

### SPECIAL RULE – Sanguinary Guard: Honor of the Chapter

When all “Sanguinary Guard” stands have been removed as casualties from the formation, the Blood Angel player's opponent automatically captures the Break Their Spirit objective regardless of whether or not there is a friendly Blood Angel formation of greater value still in play. In addition, all friendly Blood Angel formations within line of sight to this formation receive one blast marker.
