TAU ORBITAL ASSAULT FORCE SPECIAL RULES

ASSAULT DEPLOYMENT

The orbital assault force is an army that attacks exclusively via spacecraft to gain a foot hold on a new planet or in a remote area.

Manta Dropship formations may deploy anywhere on the controlling players table half. Any formation during the deployment phase (in addition to deploying normally) may deploy anywhere in the controlling players table half within 10 cm (increased from 5cm for normal dis-embarkment) of a Manta Dropship as if the Manta Dropship had just completed a planetfall action. The Manta's transport restrictions apply for all units deployed this way within the 10cm of the Manta, unless they were deployed by alternate means (teleport, garrison)
