

Adeptus Mechanicus

Forge World Stenberg

The Adeptus Mechanicus / Forge World Stenberg army list portrays the Mechanicum proper at war. The War Engines of the Adeptus Titanicus are not always available, and sometimes the Forge World itself comes under attack. Sometimes, the augmented humans of the Adeptus Mechanicus must do their fighting on their own.

The *Planetary Defence Force* list represents a Forge World under attack: Enemies have breached the Mechanicus Fleet lines and landed on a Forge World, where the home defence Skitarii are waiting in their myriad bastions and bunkers, ready to repulse the invaders and recapture their beachhead.

The *Explorator Mission* list represents the Mechanicus on their sacred Quest for Knowledge, encountering armed and hostile forces. It can be used to represent a planetstrike on a defended world (take no installations, embarking the army on sturdy Mechanicus Orbiters) or it can represent a small Explorator base coming under sudden attack (take a Landing field). In either case, the Mechanicus Fleet is present in force, lending powerful orbital support.

Adeptus Mechanicus Special Rules

Critical Infrastructure: A unit with this rule is deployed after objectives are placed, before garrisons are deployed. The unit replaces one of the objectives on the players own half of the table. Any other units in its formation are deployed along with it, using the garrison deployment rules.

An army may not have more *Critical Infrastructure* units than it has objectives (normally 3), and an army may not have duplicate *Critical Infrastructure* units.

Critical Infrastructure is always a *Structure*.

Structure: When a *Structure* is destroyed, replace it with *ruins* terrain of the same size.

Passive: Formations containing only *Passive* units never activate, and do not have a zone of control.

God Machines: The Adeptus Mechanicus worships their great Engines as incarnations of the Machine God, and the loss of one of these venerable machines will shake the morale of the entire army. When a war engine with this rule is destroyed, all friendly formations with a line of sight to it receives a Blast marker.

Robot: The Robots of the Divisio Cybernetica can be weaponized in times of need, and becomes fearsome, implacable war machines. They do, however, need constant supervision, since their programming rarely covers all the exigencies of the battlefield.

Formations that contain *Robots* suffer a -1 modifier to their activation roll, unless the formation contains a Tech-Priest. Formations that contain only *Robots* do not get a blast marker if they fail their activation roll. All *Robots* are *Fearless*.
